

SPECIALIST TAX PORTFOLIO SERVICE

(RELIANCE ON ADVISER) FOR ADVISED CLIENTS

SERVICE SUMMARY

The Specialist Tax Portfolio Service (STPS) is a Financial Adviser led discretionary service provided by Rathbones Investment Management, for UK resident individuals seeking relief from Inheritance Tax (IHT), income tax or capital gains tax (CGT), or a combination of the three. The STPS proposition provides these reliefs by building portfolios of investments that should qualify for Business Relief and/or Enterprise Investment Scheme (EIS). The client must have a relationship with an FCA authorised Financial Adviser, who is responsible for assessing client suitability. The portfolio is constructed to meet the mandate agreed with their Financial Adviser.

The client remains the beneficial owner of a portfolio of smaller company shares, which are held in a segregated, nominee account. Rathbones seek to begin investing as soon as we find suitable opportunities, and engage an external firm of tax advisers to provide their opinion on the qualifying status of companies that we have identified.

RISK CONSIDERATIONS

* Up to a maximum investment of £1m for 2025/26 tax year. Relief cannot be greater than an individual's income tax liability but may in some instances be carried back to previous tax year as well.

**Following the Autumn Budget in October 2024, there is a proposed change to the rate of IHT relief on Business Relief qualifying AIM shares. Until 5th April 2026, qualifying AIM shares will attract 100% relief from IHT. From 6th April 2026, the rate of relief will be reduced by 50%, making an effective rate of IHT 20%.

The Specialist Tax Portfolio Service is **only suitable for higher risk** investors seeking tax relief, and who are investing funds that they do not need in connection with everyday living requirements. As with all investments the value of the investment will fluctuate, and investors may not receive back the full amount they originally invested. In addition, the service is exposed to specific risks, as follows:

INVESTMENT

- The service invests in smaller companies, which can experience pronounced share price movements due to a number of factors including limited liquidity
- The nature of smaller company investment means that opportunities to invest can be limited at certain times
- An STPS portfolio will not meet normal standards for portfolio diversification in many cases as its asset allocation is solely designed for the purpose of securing tax relief

LIQUIDITY

- The ability to buy and sell shares of smaller companies can be limited by the availability of buyers and sellers
- Companies may de-list from AIM, prohibiting the sale of shares in a reasonable timescale or at a reasonable price

QUALIFYING

- The underlying companies must meet certain criteria to qualify for tax reliefs. A company could lose its qualifying status if, for example, it changes its business activities to those that don't qualify, and its shares would then have no tax advantage

RELIEF

- **The levels and types of reliefs from taxation may change or cease in response to regulatory changes**

HOLDING PERIOD

- The different investment strategies available have different minimum holding periods. Failure to meet these holding periods through share sales or death of the investor may result in the underlying tax mitigation strategy not materialising
- Inheritance tax relief accrues during the life of an investor, but its benefit is only realised upon death. In order to benefit from some reliefs available through this service, qualifying investments must be held until the death of the investor

TARGET MARKET

Investment values: positive target market from £100,000 up to £1,000,000, though the service may be applicable for higher or lower values dependant on client characteristics, needs and objectives.

Client characteristics, needs and objectives: In addition to investment value, the table below highlights the criteria that the service has been designed to meet (Positive), and those that it cannot meet (Negative).

VULNERABLE CLIENT CONSIDERATIONS

Rathbones is reliant on the Financial Adviser to inform us as soon as practical where a client is deemed vulnerable as the impact on the service provided will need to be considered. We are only able to accept applications signed by Attorneys in limited circumstances and at our discretion. Enduring Powers of Attorney (England & Wales) will not be accepted.

COSTS AND CHARGES

Management fees are charged quarterly in arrears, based on the value of the Portfolio as at the quarter end. A pro-rata charge is made for Portfolios which are transferred into or out of the Service during the quarter. VAT is charged at the prevailing rate of 20%. Full details of costs and charges are shown on our Schedule of Charges.

FAIR VALUE ASSESSMENT

In line with the FCA's Consumer Duty fair value outcome, an assessment of the STPS solution has been carried out to ensure the total cost charged to the end client is deemed reasonable when compared with the benefit received.

A number of factors were used within the value assessment, including;

- A review of service features, benefits (including past performance) and service limitations
- Total costs and charges (as defined above)
- The cost to Rathbones to manufacture and distribute the service
- Market rates and charges associated with other comparable competitor services

FAIR VALUE ASSESSMENT OUTCOME

Based on a review of the factors and key metrics listed above, we deem this service to provide fair value when distributed to the intended target market.
