RATHBONES ASSET MANAGEMENT

Rathbone SICAV Ethical Bond

Z EUR INC Hedged
31 October 2026

Investment Objective

The objective of the Sub-Fund is to provide a regular, above average income through investing in a range of fixed income and fixed income related instruments of issuers worldwide that meet strict criteria ethically and financially.

The Sub-Fund is actively managed at the Investment Manager's discretion without reference to any benchmark. There is no guarantee that this investment objective will be achieved over five years, or any other time period. The sub-fund is classified as an Article 8 financial product under SFDR.

Investment Strategy

The manager runs the benchmark-agnostic sub-fund with a strongly defined view that accounts for economic and political trends, company analysis, and thematic ideas. The investment grade sub-fund targets a high yield with a strong ethical overlay. Once investment themes have been developed, the team carry out credit analysis to find the assets that work best within the thematic framework. Cash flow and strong balance sheets are key in determining bond selection, with the team applying the 'Four Cs Plus' principles: character, capacity, collateral and covenants. The 'Plus' is conviction – that to achieve above average long-term performance, the team feel they must think differently to the market. After that, an ethical overlay is applied which consists of a negative screening followed by a positive screening.

Important Information

Copies of the Prospectus, the Key Information Document (KID), the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbones Asset Management Limited.

Strategy AUM is composed of the AUM of funds that share an investment strategy and similar regulatory constraints and are managed by the same fund management team. Where the funds are denominated in different currencies these have been converted into the share class currency of this factsheet as at month end using the European Central Bank exchange rate.

Investors should carefully read the Key Investor Information Document (KIID), Supplementary Information Document (SID) and Prospectus for detailed investor risks and before making an investment decision.

The value of investments and the income from them may go down as well as up and you may not get back your original investment.

Further information about the sustainability related aspects of the sub-fund is available at rathbones.com/am/international/financial-adviser/fixed-income/rathbone-sicav-ethical-bond-fund.

If you have doubts about your tax position, or the suitability of this investment, you should seek professional advice.

Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Interest rate fluctuations are likely to affect the capital value of investments within bond funds. When long term interest rates rise the capital value of units is likely to fall and vice versa. The effect will be more apparent on funds that invest significantly in long-dated securities. The value of capital and income will fluctuate as interest rates and credit ratings of the issuing companies change.

Important Notes

If you require clarity on any of the terms used in this factsheet then please refer to our Supplementary Information Document for further explanation.
